

ADVANCED THREAT RECOGNITION (CABIN) CLASSROOM

The Rapiscan Learning Academy develops and delivers global, fully comprehensive, high-quality training programs that help create and sustain a competent, professional and well-educated workforce, enhancing service excellence and customer satisfaction.

Our flexibly blended learning, has been developed to ensure that the Rapiscan Learning Academy is your partner of choice for current and future security training.

COURSE OVERVIEW

Our flagship five-day course is designed to provide students with the skills required to perform Advanced Threat Recognition, giving them the ability to detect a wider range of threat items through better utilization of the equipment available, whilst becoming more proficient in dealing with threat detection and escalation processes. The course content includes Basic and Intermediate Threat Recognition content, plus advanced theory of radiation, Supervisory level modules such as X-ray testing, start-up and shutdown, Threat Image Projection (if utilized) and X-ray Supervisor responsibilities. There are opportunities to practice Threat Recognition through the use of CBT with increasing difficulties, complexities and combinations of items being used.

This course highly supports operational excellence by training students in a wide and complex range of threats; assessing in both a formative and summative format over the 5 days.

TARGETED BLENDED TRAINING

We use only the most engaging and rewarding methods for delivering courses such as videos, interactive learning, gamification, knowledge banks and formal assessment. This provides users with realistic and accurate experiences, by incorporating security screening simulation and interactive knowledge testing in mobile user friendly formats. We ensure our customers and employees are prepared with the knowledge they need to keep themselves and others safe and secure at all times.

Students will have access to a personalized **Learning Hub** for 12 months, full of additional learning content to support effective operation of Rapiscan equipment.

COURSE AIM:

This course provides students with the basic skills to perform Advanced Threat Recognition and Image Analysis.

COURSE OBJECTIVES:

By the end of this course students will be able to:

1. Provide an in-depth overview of security screening equipment available
2. Describe the most efficient method of screening for the applicable operation
3. Explain the theory and development behind the technology available for threat recognition
4. Demonstrate methods of threat detection using security screening equipment and CBT
5. Recognize a wide range of threat items through practical scenarios and on-line training
6. Detail the most recent and relevant industry regulations, local procedures or best practice
7. List high level testing, reporting and auditing processes
8. Define procedures for operational staff up to and including supervisor level

KEY POINTS

COURSE TITLE:

Advanced Threat Recognition
(Cabin)
