Dangerous Goods in Excepted Quantities Labels

[Enlarge Image](#)

These Excepted Quantities Labels are required on all packages containing excepted quantities of dangerous goods shipped by air, are required for shipment in the U.S. and are used very often for ground shipments. These [Air Shipping Labels](#) include an area for customers to add the primary hazard class or division and the name of the shipper or consignee if necessary. These red, Dangerous Goods Labels measure 100 mm x 100 mm and are designed in accordance with the international air regulations.

For more information on what is considered excepted quantities see our [Shipping Limited Quantities, Excepted Quantities, and ORM-D Consumer Commodities Guide](#).
