
GENERAL NARCOTICS AWARENESS

The Rapiscan Learning Academy develops and delivers global, fully comprehensive, high-quality training programs that help create and sustain a competent, professional and well-educated workforce, enhancing service excellence and customer satisfaction.

Our flexibly blended learning, has been developed to ensure that the Rapiscan Learning Academy is your partner of choice for current and future security training.

COURSE OVERVIEW

The increased manufacturing and trafficking of narcotics, with the addition of the growing adeptness of traffickers in carrying narcotics, has made it difficult for law enforcement and criminal justice agencies to locate them. To help overcome this problem, Rapiscan Systems Trace narcotics detection equipment provides precise and fully automatic rapid detection and identification.

Rapiscan Systems offer a one-day **General Narcotics Awareness** course, that covers key topics on the current various types of narcotics, the behaviour of persons under the influence of narcotics, narcotic use and the associated risks. Attention is paid to the benefits of quick, effective identification of narcotics via Trace detection, along with an overview of our full range of machines and their suitability to the relevant task. Training can either be delivered at one of our training centres, or at your facility if more convenient.

KEY POINTS

TRAINING COURSE TITLE:
General Narcotics Awareness

TRAINING COURSE CODE:

UKLAW006

DURATION:
1 Day

STUDENT CAPACITY:
10

PREREQUISITES:
None
