

RETURNING TO CLASSROOM LEARNING

Our measures and protocols to create a safe training environment.

We understand that many learners are eager to return to classroom training.

We are committed to providing the same high quality learning experience for our learners whilst providing peace of mind that we have necessary and proportionate protocols in place to create a safe learning environment.

AHEAD OF YOUR VISIT

PRE-OPENING

- A Covid-19 risk assessment of training space, classrooms and Learning Academy training centers has been carried out
- A full disinfectant clean of the venue has been carried out using recommended cleaning chemicals for Covid-19
- All desks, chairs and equipment will be sanitized clean before the start of each course
- Classrooms and breakout areas will be deep cleaned at the end of each day of the course

ON THE DAY

- Your trainer will conduct a morning inspection of all areas before the venue opens for training
- All equipment and classrooms will be thoroughly cleaned in line with Covid-19 protocols ahead of each class taking place. If you see something which doesn't look quite right, or are unhappy with the cleanliness of an area, don't worry. Just let your trainer know and we will rectify it for you
- Specific guidance for each Learning Academy training center will be provided by your trainer - we want you to enjoy your experience whilst keeping safe

WHAT YOU WILL SEE IN OUR CENTRES

ARRIVING AT THE CENTRE

- We are staggering start times to reduce the number of students in our Learning Academy training centers at one time
- On arrival, you will be welcomed by Rapiscan Systems staff, who can give directional support and advice on safety protocols specific to that site. If you have concerns or questions our Learning Academy team will be available to support you.
- We are reducing the touch points at the Learning Academy
- Bottled water will be provided for each student to avoid the potential spread of Covid-19 in our coffee or break areas

SOCIAL DISTANCING

- We have reduced the capacity (on average to 30%), for each of our training rooms to ensure there is sufficient space to social distance and effectively take part in practical lessons
 - All breakout areas have been reviewed - seats and tables have been moved to ensure social distancing
 - We have also converted some classrooms to create additional breakout space
 - Where required, and where necessary, we have put in place a one-way system around certain Learning Academy training centers

FOR YOUR SAFETY DURING THE DAY

SAFETY STEPS

- PPE will be provided at each of our Learning Academy training centers. We request that masks are worn in all student communal areas, but it is not mandatory in the classroom or seating in the break-out space where the furniture has been positioned to meet social distancing requirements
- Sanitizer stations will be available for you to use in all receptions, breakout space and classrooms
- All air conditioning will be put onto continuous flow to allow maximum air ventilation
- We have an increased cleaning regime in place which is recorded for key areas throughout our training centers

FURTHER INFORMATION

- Covid-19 safety and awareness signage has been installed throughout our Learning Academy training centers
- All students will receive updated course joining instructions with safety information. These will be specific to the Learning Academy that you attend
- For any further questions on the day, please speak to your trainer who will be very happy to assist you and offer any advice
